About Me {

I'm a highly technical software engineering prospect with the appropriate learning and growth curve to adapt, innovate and thrive under pressure situations. I am reputed for my critical and technical thinking capabilities, as well as my undeterred drive to succeed at tasks, thus I excel in communication and working with others. My goal is to break into the tech industry and make lasting impacts, being found my love for open source contributing }

Education {

B.S Computer Science, University of Buea
2022-2025 Years
Buea-Southwest region-Cameroon
GPA:3.02
}

projects {

Title: "Python Programmer"
Source: "GitHub"
